

GILLETT G. O. P. CHOICE FOR NEXT SPEAKER IN HOUSE

Nominated On First Ballot With 138 Votes

(By The Associated Press.)
WASHINGTON, Feb. 27.—Representative Frederick H. Gillett, of Massachusetts, was nominated on the first ballot tonight by the Republican conference as the party candidate for speaker in the house of representatives.

Representative James R. Mann of Illinois, ran second, with Representative Philip Campbell of Kansas who entered the race a few days ago, after Representative Simon D. Fess of Ohio had withdrawn, far behind. As the Republicans will have a majority in the next house, nomination was regarded by them as equivalent to election.

The Official Vote.
The official vote was announced by Representative Horace M. Townner, of Iowa (chairman of the conference) follows:

Gillett 138
Mann 69
Campbell 12
Scattering 5

Four for Representative John Esch of Wisconsin, and one for Representative Frank W. Mondell, of Wyoming.

Immediately after the ballot was announced, the election of Mr. Gillett was made unanimous on motion of Mr. Mann.

After a brief address by the successful candidate the conference proceeded with the nomination of other candidates for office in the house.

Mr. Tyler Page of Montgomery County, Maryland, was nominated clerk by acclamation and Joseph B. Rodgers of Philadelphia now a house employee was nominated for sergeant-at-arms over Representative William J. Carey of Wisconsin, whose term expires March 4.

Gillett Issues Statement.
Immediately after his nomination Mr. Gillett issued this statement: "I have reached the goal of my ambition a happiness which I suppose comes to few men. I feel the deepest gratitude to my generous supporters, but I have no time of hard feeling against anyone. My ambition now will be to establish harmonious cooperation among all Republicans that we may cope successfully with the prodigious problems of the coming session."

Preliminaries occupied the first half hour of the meeting. Representative Horace M. Townner, of Iowa, was chosen presiding officer and the conference then adopted a resolution outlining the program of the night's work.

Wilson Names Palmer To Fill Gregory's Place

BULLETIN WASHINGTON, Feb. 28.—Nomination of A. Mitchell Palmer, alien property custodian, to be attorney general, sent to the senate yesterday by President Wilson was reread early this (Friday) morning by the senate.

Doubt was expressed that the nomination would be acted upon, but administration leaders, pointed out that if such should prove the case, the president could make a recess appointment.

(By The Associated Press.)
WASHINGTON, Feb. 27.—A. Mitchell Palmer today was nominated by President Wilson to be attorney general.

Mr. Palmer will probably take office March 4, the date tentatively fixed by Attorney General Gregory for his retirement when he resigned several months ago to return to private practice of law.

The resignation of Mr. Palmer as alien property custodian has not been announced, and there has been no intimation as to who may succeed him in that office.

Mr. Palmer is a native of Stroudsburg, Pa., and 47 years old. He graduated from Swarthmore college in 1891 and two years later was admitted to the bar.

In 1908 he was elected to congress and served three terms from the 26th Pennsylvania district. Since 1912 he has been a member of the national democratic committee.

In 1914, running on the democratic ticket for the senate he was defeated by Senator Penrose. The following year he was appointed by President Wilson a judge of the United States court of claims, but declined to accept.

When the United States entered the war, Mr. Palmer became chairman of the 5th district board of Pennsylvania under the select service act, continuing direction of the board's operation until October of the same year when President Wilson named him alien property custodian.

Mr. Palmer married Miss Roberta Marlett Dixon of Easton, Md., and they have one child, a daughter ten years old.

CLEMENCEAU ATTENDS MEETING OF POWERS

PARIS, Feb. 27.—(By The Associated Press.)—Premier Clemenceau today attended the meeting of the great powers the first time he had met his conferees since the attempt against his life a little more than week ago. The premier remained for half an hour discussing various great questions in which France is highly interested. He told his colleagues he would return next week to resume the presidency of the council. The premier looked well and vigorous and gave no indication of the recent ordeal he had undergone. He jokingly referred to his experience and said as he greeted Henry White of the American peace delegation, "I hope you have not got a bullet in your lung."

David Lloyd George, the British prime minister has arranged to arrive in Paris, March 8 when it is expected that all the commissions will have reported, that Mr. Clemenceau will again be presiding and that action will be begun on the preliminary peace treaty.

M. Clemenceau paid a visit this afternoon to President Poincaré at the palace. Later he returned to the war ministry, where he received numerous visitors, among them Marshal Foch.

POULTRY SHIPPERS IN CONVENTION

DECATUR, Ill., Feb. 27.—Problems of transportation are the biggest facing poultry and egg shippers of Illinois, according to 300 members of the association who met here today for the opening session of the state convention. Inability to get cars promptly for time shipments, property losses due to rough handling of eggs and delay of settlement of damage claims cause the shippers loss and inconvenience.

SEN. HITCHCOCK IN STRONG APPEAL FOR LEAGUE PLAN

Would Render War Between Members Impossible

(By The Associated Press.)
WASHINGTON, Feb. 27.—Peace with the league of nations of war and preparations for war without it, the internationalism of peace and justice or the internationalism of the "Socialist, the Anarchist and the Bolshevik" are the alternatives before the world, declared Senator Hitchcock of Nebraska, chairman of the senate foreign relations committee in an address late today to the senate.

The proposed league, Senator Hitchcock asserted would "render war between members as nearly impossible as means can devise."

He spoke of the growth of Socialism and the popular demand for relief from war and its sacrifices and said peoples throughout the world, denied measures for peace, would violently protest and seize power.

Senators who have opposed the league draft the Nebraska member asserted would be opposed to any league. He charged that in their attacks these senators had magnified its dangers and that they quibble and split hairs.

Refers to Roosevelt.

Replying to a reference to Americanism as opposed to internationalism in a recent speech of Senator Borah of Idaho, who quoted Colonel Roosevelt, Senator Hitchcock said the former president had favored a league of nations to enforce peace, not only by moral force but by military strength, and expressed the belief that if he were alive Colonel Roosevelt would be found supporting the league as ardently as President Wilson.

Senator Hitchcock answered in detail the recent criticisms of Senator Borah and Cummings of Iowa, Republican and Reed of Missouri, Democrat. Some of their conditions he characterized as ridiculous and absurd. He said it was not true that the league plans would destroy the Monroe Doctrine or depart from Washington's foreign policy and like President Wilson, he took the position that the world powers would add to the Monroe Doctrine the guarantee. The disarmament provision, Senator Hitchcock said did not arbitrarily fix the limit of armament but was merely advisory. The argument that nations in agreeing to arbitration submit their national life to the league, he declared was absurd when the league guaranteed political independence and territorial integrity to every member.

Takes Up Monroe Doctrine.
In discussing the Monroe Doctrine, Senator Hitchcock said: "Instead of being compelled to defend the western Hemisphere alone we would have the sympathy and help of the league of nations in carrying out the spirit of its organization."

We have been told that this is one of those entangling alliances against which Washington warned us. I deny it."

He pictured Washington writing his farewell address by candle light and added: "If Washington were living today he would press an electric button, summon a stenographer and in the blaze of electric lights, dictate a message urging the American people to unite with other great nations—* * * * * to end wars and to establish a perpetual peace of justice and good will. He would adapt himself to new conditions."

To the suggestion that Japan might impose the immigration question on America, the senator said Japan's efforts for racial equality declarations at Paris already had failed and that confronted in the league by seven great Caucasian races, Japanese could not even get a hearing if she attempted to bring up the immigration question.

Citing enormous cost and losses of the present war he said: never be restored until governments devise some way to end these wars. * * * * *

"If we fail to adopt an internationalism of governments, that will unite to end wars we shall be forced to face with the internationalism of the individual."

Referring to the trend toward Socialistic leaders and ideas, Senator Hitchcock said Russia was communistic, that France and Italy were dominated by the Socialist leaders and that Social principles were growing in England and Germany.

Must Stop Socialism.
War and the preparations for war the burdens of war and the horrors of war are largely responsible for this development in every nation of Europe of the Socialistic idea, he said.

"If war and the preparations for war are tonight the chief business of national governments we can expect a development of Socialism and Bolshevism in the United States."

Analyzing the proposed league constitution, Senator Hitchcock said its agreement for postponement of war while the executive

Washington Pays Honor To Brave U. S. Soldiers

Early Signing Of Peace Treaty Is Wilson's Wish

(By The Associated Press.)
WASHINGTON, Feb. 27.—Pennsylvania avenue re-echoed today, for the first time in many years, to the tread of victorious American soldiers—men, who fought in Europe under the stars and stripes to help clear the way for the spread of democratic ideals.

President Wilson, back only a few days from the peace conference in Paris, led the parade on foot, and after marching through cheering thousands from the capitol to the White House, took his place in this reviewing stand with Mrs. Wilson surrounded by his cabinet, justices of the supreme court, the diplomatic corps and high officers of the American and foreign military forces.

The parade was organized as a tribute to service men—soldiers, sailors and marines—from the District of Columbia, but it soon became apparent that this first review in Washington since victory was won had more than local significance. Men from every state and every service took part and especially the presence of hundreds of wounded who at Chateau Thierry, St. Mihiel and Argonne, helped write the stirring chapters of American participation in the war, made the parade a testimonial of the nation's pride in all its fighters, regardless of locality.

Three Generations.
Three generations were represented in the pageant the fighters of today, the veterans of yesterday and the high school and college cadets in training to take their places under the flag if needed.

The blue and gray walked together in the section of veterans, followed by young men in the uniforms of Spanish war days. Resplendent in their tribal war garb Indians joined with their white brothers in the parade as they joined them in fighting on foreign fields to crush autocracy.

Enthusiasm of the spectators was unrestrained, but many a time touched a note too deep for mere cheering. In memory of the "boys we left behind us," the returned victors carried a great white silk flag with a single gold star behind which came a black-draped and flower-laden caisson, the traditional bier of a soldier. Silence, misty eyes and bare heads greeted the flag.

Mothers and fathers of men who served also were in the procession. "We could not go, we gave," read one of the banners in which President Wilson showed much interest. Secretary Daniels and Major General Barnett, commandant of the marine corps left the reviewing stand to join this section in honor of their sons in service.

President Reviews.
After President Wilson had taken his place in the stand, the Star Spangled Banner was sung by a chorus and then the great stream of service men began to pour by, some of the soldiers wearing body armor and trench helmets and carrying gas masks, as they did in France. One lad boasted a German helmet impaled on his bayonet exciting tumultuous approval.

Uniformed women attached to the navy department marched in excellent formation looking very trim in the blue of the navy or olive drab of the marines.

Evolution by a score of airplanes, flying boats and the navy dirigible C-3 and huge trucks carrying sound detectors, camouflage and field guns, searchlights and other apparatus gave the spectators an interesting insight into the details of modern war machinery.

YOUTH TRIED TO WRECK TRAIN

ELGIN, Ill., Feb. 27.—Upon his confession that he had tried to wreck one of the through passenger trains on the Burlington road on the night of Feb. 22, Clarence Larson, 22 years old, of LeRoy, which is four miles west of Geneva, was lodged in the county jail this morning in lieu of bonds of \$2,500.

Larson also has confessed to the burning of two large cattle barns near LeRoy one of which contained twenty two animals, all of which were killed by the flames.

NATIONAL EDUCATORS IN CONFERENCE

CHICAGO, Feb. 27.—Interest in the national education association's conference centered in the work of the nominating and resolutions committee whose reports will be made tomorrow at a business session.

For president of the association the names of Dr. Henry W. Holmes of Harvard University; Prof. William B. Owen, Principal of the Chicago Normal College; Supt. J. H. Beveridge of Omaha, Neb., and Supt. J. W. Withers of St. Louis have been mentioned.

BANDITS BLOW TWO SAFES

Bloomington, Ill., Feb. 27.—Safe blowers here last night got \$75 in war savings stamps from the Central Mill and Elevator safe; \$150 war savings stamps from the West Side Coal and Lumber Co., both safes being blown open. They also got into Harwood's lumber company office and worked the combination on the safe but got nothing there.

Early Signing Of Peace Treaty Is Wilson's Wish

WASHINGTON, Feb. 27.—President Wilson desires conclusion of a peace treaty as speedily as consistent with the great questions involved and, except for adjustment of territorial differences he believes a great part of the work is approaching final form.

This was learned by newspaper correspondents with whom the president had a free and frank discussion of his work at Paris and the legislative situation late today after he had spent two hours conferring with administration leaders at the capitol. It was the first time the correspondents in Washington had been invited to see the president in several years.

It was learned that the amendment to the proposed constitution of the league of nations which the president intends to suggest upon his return to Paris will deal with measure to be used by the league in enforcing territorial.

Sees No Conflict.
The president let it be known that he is firmly convinced that in no particular does any provision of the league charter conflict with the American Constitution. He told callers that in the Paris conferences he had closely and carefully kept in mind constitutional features and had the advice of expert American lawyers on all constitutional questions arising. Those appearing to conflict with the constitution were rejected or altered.

Regarding the Monroe Doctrine the president felt that the league constitution could not contravene it when it provided for maintenance of the doctrine by all the world.

It was regarded that the president believed that with the exception of the clause relating to enforcing territorial decrease the only ambiguities connected with the league constitution existed in the minds of persons discussing them.

It was learned that the president is firm in his determination not to call an extra session of the new congress until he returns from France and also that he does not intend to address congress before he sails on March 5.

In regard to congressional constitution the president made it known that he was interested in securing passage of several important legislation bills but that most of his conferences at the capitol were to receive requests for action from senators and representatives.

JAPAN IN FULL ACCORD WITH LEAGUE

MARSEILLES, Feb. 27.—(By The Associated Press.)—The Marquis Kinnouchi Saionji, former prime minister of Japan who is to head the Japanese delegation at the peace conference and who has been elected a permanent vice president of conference, arrived here today at one o'clock on board the Tamba Maru. Before departing for Paris, Marquis Saionji said to the Associated Press:

"While it is impossible for me to express an opinion on what has transpired since the peace conference opening in Paris having been forty days on the sea voyage, I have no hesitation in saying that Japan desires to see a league of nations organized so as to insure a more and effective civilization in practice as well as in theory."

"At such a time in such a world it is the duty of men of every class and color to help in perfecting an indestructible barrier against the forces which have hindered the progress of the world."

Replying to a query regarding Japan's policy toward China the Marquis said:

"The policy of the present government and I am sure that of all future governments must be one of fair treatment co-operation and good neighborliness in their best and highest meaning. We are determined that China shall realize how fully we are prepared to meet her half way in all future dealing and negotiations which may help to bring about mutual confidence and esteem as well as co-operation in the development of both our countries and their peoples."

WOMAN GIVEN SERVICE CROSS

WASHINGTON, Feb. 27.—The first woman to win the American army's Distinguished Service Medal is Miss Beatrice Mac Donald, of the reserve nurse corps, who was seriously wounded while remaining at her post with wounded men at a British casualty station during a German night raid. Secretary Baker invited her to the war department today to receive the decoration with formal ceremony.

CHICAGO PLAYERS WIN

Chicago, Feb. 27.—Chicago amateur billiard players won a triple victory in the first three contests of the ten day national baskinette tournament with Champion Corwin Houston of Detroit, going down to a 3-0 to 2-7 defeat at the hands of David McAndless tonight.

SPEED UP IS WILSON'S PLEA TO CONGRESS

Busy Day Spent At Capitol Building by President

(By The Associated Press.)
WASHINGTON, Feb. 27.—President Wilson spent two hours at the capitol today conferring with scores of Democratic members of congress, discussing innumerable executive affairs, measures to expedite the work of congress before adjournment next Tuesday, patronage and the league of nations and questions related to his work at the peace conference.

Throughout the president's stay both senate and house continued engaged at high pressure on their congested calendars and much headway was made during the day. Ultimate failure of several important measures, however, still was regarded by leaders as almost certain.

From 2:30 o'clock to 5:30 o'clock a constant stream of callers filed into the chief executive's private room off the senate chamber, while the president, standing, thrust, gave and received suggestions on a multitude of subjects. At the close of the visit the president received newspaper correspondents.

Receives Many Callers.
During his conference the president emphatically reiterated his determination not to call the new congress in extra-ordinary session until he returns from France. Administration leaders were urged by the president to pass the Victory Loan Bill and all urgent measures.

While the president was at the capitol the senate debated the \$1,000,000,000 wheat guarantee bill. Chairman Hitchcock of the foreign relations committee made his address on the league of nations and the house debated the general deficiency appropriation measure.

"Speeding up" measures bore further fruit in both houses. The measure validating about \$2,750,000,000 in formal war contracts was completed both bodies adopting the conference report. The house approved the conference report on the oil and leasing bill, but it was held up in the senate because of controversy over the California and Wyoming naval reserve fields.

The senate remained in session until a late hour tonight endeavoring to pass the wheat guarantee bill and to proceed with the \$1,215,000,000 army appropriation and other money measures. The house adjourned early because of the Republican organization conference tonight, but tomorrow it plans to pass its last two appropriation bills the sundry civil and general deficiency measures, and also take up the amendment, reported today to repeal the ten per cent taxes on semi-luxuries contained in the new war revenue law. To further hasten action, the senate agreed to meet at 10 o'clock each morning until adjournment.

Clashes occurred in both senate and house today over the legislative situation, the doves among including a declaration by Republican Leader Mann in the house where they fought for six hours, after Lopez had ordered the railroad station burned the bridges dynamited and had occupied the plaza.

General Castro announced tonight he did not know the fate of his small garrison at Montezuma as nothing has been heard from there since the wire was cut. It is feared the forty men were annihilated. General Castro sent a work train and troop train south and ordered another to proceed south tonight to locate the Villa band. He does not anticipate an attack on Juarez although he is isolated from the south.

WOULD REPEAL SEMI-LUXURY TAX

WASHINGTON, Feb. 27.—Repeal of the semi-luxury tax clause in the war revenue bill signed Monday night by the president was proposed in a resolution approved today by the house ways and means committee and later introduced by Chairman Kitchin. The clause provides for a tax of ten per cent after May 1 on wearing apparel and many other specialties costing above certain specified sums.

Billion Dollar Wheat Price Bill Passed

WASHINGTON, Feb. 28.—The administration bill appropriating \$1,000,000,000 to fulfill the government's guaranteed wheat price to the farmer for the 1919 crop was passed at 12:30 o'clock this (Friday) morning by the senate without material amendment, and new goes to conference.

After disposing of the wheat measure the senate went into executive session to consider nominations. It finally adjourned at 1:10 o'clock after one of the longest night sessions of recent years.

An change was made by the senate in the house provisions for import and export restrictions, or in the limitation to June 1, 1920, of the operation of the act. Efforts to reduce the appropriation and to strike out the licensing provisions failed. After adopting an amendment to deny benefits of the bill to growers of 1919 spring wheat who did not grow 1918 spring wheat the senate reversed its action and by a vote of 31 to 23 struck out the amendment.

The only important amendment adopted by the senate was a rider amending the cotton futures act so as to restrict speculation in cotton and give the government larger control over exchanges.

Upon motion of Senator Road of Missouri, Democrat, who denounced as barbarous the penalties for violations of the bill's licensing and other regulations the senate reduced the penalties to a maximum fine of \$1,000.

Efforts of southern senators to add a rider to the bill calling for the removal of all export embargo restrictions against cotton failed, the senate voting down the amendment.

WOULD ABOLISH STATE UTILITIES COMMISSION

SPRINGFIELD, Ill., Feb. 27.—Plans were made before adjournment of the legislature here today until next Tuesday for a hearing before the house and senate public utilities committees on bills introduced in both branches proposing the abolition of the Illinois Public Utilities Commission.

Senator Bailey, chairman of the senate committee announced a hearing for three P. M. next Tuesday at which members of the house committee will be present.

Senator Duval and Representative Biphus are sponsoring measures asking the repeal of the public utilities commission act. The Illinois Municipal League has in preparation a bill giving cities an option as to whether they shall come under the control of the commission so far as public utilities are concerned. Another measure drawn by the Illinois Home Rule League is intended to remove all public utilities within the limits of any city from the jurisdiction from the state commission and to place regulation entirely in the hands of city authorities.

Neither of these bills has made its appearance.

General Castro announced tonight he did not know the fate of his small garrison at Montezuma as nothing has been heard from there since the wire was cut. It is feared the forty men were annihilated. BRITISH ADOPT PLAN TO CHECK LABOR UNREST

Joint Commission To Consider Questions of the Hour

(By The Associated Press.)
LONDON, Feb. 27.—The industrial conference, called by the government today, adopted a resolution moved by Arthur Henderson, the labor leader, that a joint committee consider the question of hours and wages of workingmen and women and general conditions of employment.

An amendment offered by Premier Lloyd George that the committee investigate causes of unrest and report to the conference not later than April 5th, also was adopted.

The committee will be composed of an equal number of employers and employees, including men and women with a chairman appointed by the government. The committee will report on the steps necessary to safeguard the best relations between capital and labor. It will be made up of thirty representatives of labor and thirty representatives of employers.

Must Work Quickly.
As head of the government, the premier said he very much wished the committee to report on the present unrest and its causes, for that reason he welcomed Mr. Henderson's suggestion. If Great Britain stood still in meeting this problem the premier added, France and America would stand still and catastrophe would follow.

Premier Lloyd George said he hoped a preliminary peace would be signed within the next few days and declared the blockade of Germany could not be raised until Germany had signed a treaty which would make war impossible.

Concerning the industrial situation there were faults on both sides, the premier said. The workers should feel that they had an interest in industry and the employers must place more trust in the workmen. He hoped that by summer the cost of living in the workman's household would be reduced four shillings a week.

The premier said that the workers naturally were determined to secure a higher and better standard of life. That was a natural aspiration with which the whole situation would sympathize. His convictions was that the employers were prepared to go further than most workers imagined.

Conference Largely Attended
The conference was attended by the minister of labor and other heads of government departments and by representatives of British capital and labor. The early hours of the session today were marked by an assertion made by labor of its importance and power in which the government was warned that labor would be satisfied with no half way measures.

However, with the exception of one or two radical speakers, who passionately urged confiscation of wealth and other revolutionary measures, the labor leaders especially those representing the most important trades unions advocated relief along constitutional lines.

Sir Robert Home, minister of labor, opened the meeting with a formal statement on the labor situation and the measures the government was taking to remedy conditions. He announced that after expiration of the period of thirteen weeks of donation to unemployed workers now in operation that the government proposed to reduce the amount for the succeeding thirteen weeks, the men to receive twenty shillings instead of twenty nine and the women fifteen instead of twenty five.

Vigorous protests against this scheme were voiced by all labor speakers including John Robert Clines, former food minister who is probably the most moderate of all the labor representatives.

On behalf of the engineering employers, Sir Allan P. Smith, proposed formation of an industrial commission to consider and report to a further meeting of the parliament on the causes of the

Congress last night passed the \$1,000,000 bill to make good the government guarantee of wheat price. The farmers who have been worrying on this question can now think along other lines. The government is going to make good its promise, just as everybody should have known would be true.

According to the governor of Missouri, that state must be maintained on a cash basis. The executive is going to oppose all legislation for expenditures where the money is not in sight thru revenue legislation. It would be a fine thing if that rule could apply to all municipalities, but when it does there must be larger revenues as well.

There are evidently plenty of citizens willing to take over the responsibility of city government in Jacksonville, even though the city's debt is enormously heavy and the daily expenses far above the revenues. Yesterday was the final day for the withdrawal of candidates but no petitions were filed with City Clerk Pyatt. The contest is now on in earnest.

Educational work really isn't a bad occupation. Dr. C. E. Chadsey of Detroit has been recommended as superintendent of the Chicago schools at a salary of \$18,000 a year. The Chicago people think that they have picked the best equipped man in the country for the superintendency, and are right in saying that it is the biggest job in Chicago. Certainly there is real responsibility on the shoulders of a man who directs the school system of a city of two and a half million people.

Solicitors for subscriptions in the water supply campaign yesterday made special comment on the action of officers of the Eli Bridge Co. in joining the movement. These men are not yet residents of Jacksonville, yet they sensed the importance of this movement and are anxious to be identified with it. Their action should be an example to men long resident here, some of whom have taken on the unfortunate habit of belittling Jacksonville enterprises, or at any rate, considering them only in a pessimistic way. This water project is going to succeed. Citizens have an opportunity of aiding it without loss to themselves and the community effort is going to be beneficial in more ways than one.

labor is entitled to a living wage and to increases commensurate with present day conditions, but there will be a general approval of the statement by Charles Piez, director general of the emergency fleet commission, that it is time to cut wages softly with striking ship yard workers. The demand that they have made for increases from \$64 to \$70 per week is unreasonable. If anything, the ship workers' wages should be scaled down in-

stead of upward. There was a time before the signing of the armistice that there seemingly couldn't be any discussion about wages, all demands must be met but that time is past.

After all, what's the use of so much discussion about the daylight saving bill, which was so generally opposed in rural precincts and favored in some industrial centers? Each person who is anxious for the daylight plan to remain can rise an hour earlier if he so desires, even if the law is repealed. The advantages which the daylight saving plan presents are possible thru individual action without the law.

THE EDUCATIONAL PROBLEM

President Edmund James of the University of Illinois is one of those educators who sees under present conditions a pressing need for more federal direction in educational affairs. He favors a secretary of education in the president's cabinet. In a recent address Dr. James presented this argument.

"I believe that American education faces a very critical situation," said Dr. James. "Some of our greatest national interests are in a very serious danger. The problems of our educational future cannot be successfully solved in my opinion unless the nation thru the federal government of its fair share of national responsibility for educational matters; and, second, for a suitable organization of the government machinery to enable it to do this."

Rippling Rhymes By Walt Mason

THE GREAT BOON

The boon of peace is good as wheat, succeeding years of sadness; it took the coldness from our feet and filled our hearts with gladness. All day I speak about the boon, in crisp, well chosen phrases; at night I sit beneath the moon, and boost the same like blazes. It's good to wake at dawn, indeed, and cut some sprightly capers, and not be half afraid to read the war news in the papers. It's good to wander through the grad and not hear people saying, "Alas! Alas! The news is bad! The Hun is busy slaying!" It's good to walk abroad once more, and meet the early risers, and hear no reference to gore, to nutty kings and kaisers. Some things are slight, but out of plumb, and kickers are disgusted, but reconstruction soon will come, and things will be adjusted. We have the good old boon of boons, the dove of peace is soaring, and he's not worth two picyunes who spends the long day roaring. We can't get back in half a day to where the rumpus found us, but with the good old boon in play no problems can confound us.

PUBLIC HEARING HELD ON PAVING

The board of local improvement held a public hearing Thursday afternoon for the East State street paving from Johnson street to the city limits. There were only three objectors present, M. L. Denny, William Lederbaum and Michael Schneider, representing 860 feet of frontage. The total frontage for the proposed improvement is more than 3,000 feet. The board after a brief hearing adopted the resolution providing for the necessary ordinance and the matter will now pass on to the county court hearing. It is the intention to make this improvement with vitrified brick. Because of the heavy grade leading under the subway it was not deemed advisable to use asphalt or any paving material of this improvement made by Engineer E. M. Henderson is \$15,299. This is divided as follows:
4,240 square yards of brick.....\$11,236.00
3,008 lin. feet concrete curb.....1,955.20
2,484 yards of excavating.....1,242.00
Court costs and other expenses.....\$65.80

BUYS BUILDING ON S. MAIN STREET

Joshua Vasconcellos & Sons well known contractors yesterday purchased from the J. O. King estate thru J. A. Bellatti the store building on South Main street. This is the building which for years was occupied by the Grassy grocery and subsequently by the late John A. Strawn with grocery stock. The most recent tenant was Herman Opperman, who had a meat market there about a year ago.

The purchasers will make some extensive improvements in the interior of the building and it will be used as an office and for certain classes of work. A room in the rear of the main part will probably be leased. The deed has not yet passed but possession has been given and the improvement work will start at once, so that the building will be ready for occupancy by the time the senior member of the firm retires from membership in the city council.

A LONG TIME SILENT

Mrs. William Crozier has received a letter from her nephew, Loring A. Platt, who is with the U. S. forces in Luxembourg. The young man has not received a letter for six months and has been unable to get anywhere for about the same length of time. He says a relative from home would look wonderfully well and acceptable. Mr. Platt enlisted from Champaign about a year and a half ago. He was for a few years employed in the composing room of the Journal.

MR. AND MRS. A. A. CURRY HOME AGAIN

Mr. and Mrs. A. A. Curry have returned from an extended tour comprising Mobile, Tampa, St. Petersburg, Florida and other points in the sunny south and come home well pleased with what they have seen and heard. Mr. Curry says he wouldn't wait to live in the south but it is pleasant to go down there during the winter. He was especially impressed by the religious atmosphere of St. Petersburg which he says excelled any place he ever knew in that respect.

Absolutely everybody goes to church there and in the winter the accommodations are hardly sufficient for the would be worshippers. He attended a Baptist Sunday school where there were five hundred in one Bible class, taught by a man from the north and the time was very enjoyable.

D. R. UPHAM IS EIGHTY-NINE YEARS OLD

How many people will be as happy as D. R. Upham is today if they live to be 89 years old? Mr. Upham was born in Youngstown, Ohio and at the age of ten years came to Illinois and settled with his family in Arcadia precinct. There he played when a boy, with Ben H. Gleson, Susanah Johnson and many others who have gone on before. He is wonderfully hale and hearty and can sell a farm today in four different languages. May he be spared for many years to come to the wish of his numerous friends.

MANY REPORTED JOBLESS IN NEW YORK

NEW YORK, Feb. 27.—unemployment in this state is increasing at an alarming rate and the resultant unrest among the jobless is such as to cause grave concern, according to the latest reports from fourteen industrial centers made public here tonight by Dr. George W. Kirchwey, state director of the United States employment service.

If this condition is allowed to continue without any organized means of abating it, I should not be surprised if we should witness some fine examples of Soviet demonstrations, asserted Dr. Kirchwey.

He said that large concerns in various cities daily are laying off large numbers of workers and that this situation is aggravated by the increasing host of soldiers discharged each week.

WILSON UNCHANGED ON EXTRA SESSION

WASHINGTON, Feb. 27.—In conferences at the capitol late today with members of the senate President Wilson reiterated, with emphasis, his decision not to call congress in extraordinary session until he returned again from France. He requested administration leaders to so advise Republicans.

Administration leaders advised the President that they believed the Republicans were determined to defeat the Victory Liberty Loan bill and thus force an early call of the new congress.

President Wilson, it was said, set his jaws and with emphatic gestures told the Democratic leaders to tell the Republicans that they would be responsible for failure of the bill and that, regardless of their attitude, he would not call congress together until he returned.

DELEGATES TAKE UP TERRITORIAL QUESTIONS

Paris, Feb. 27.—The official communication dealing with today's session of the peace conference issued this evening says: "A meeting of the ministers and representatives of the allied and associated powers was held today at the Quai d'Orsay. It began at 3 p. m. and lasted until 5 p. m. Mr. Clemenceau came to M. Pichon's room in order to resume work with the delegates to the conference."

"On motion by the American delegates it was decided to organize a central commission for territorial questions."

"Afterwards the Zionist case was presented by Dr. Weismann and M. Sokolow, representing the Zionist organization. Professor Sylvain Levi of the college of France and a member of the Palestine committee, Mr. Andre Spiro, representing the French Zionist organization and Mr. Scapkin, representing the Jews of Russia. The next meeting will be held Saturday March 1 at 2 p. m."

O'LEARY TAKES STAND IN OWN BEHALF

NEW YORK, Feb. 27.—Jeremiah A. O'Leary, former editor of the anti-British magazine Bull took the witness stand in his own behalf today at his trial in federal court on a charge of violating the espionage law. O'Leary vehemently denied ever having intended to obstruct the raising of an army by any articles he had published and asserted he did not know that Bull was regarded as obstructive of any American war measures, until he read a notice to that effect published by direction of Postmaster General Burleson.

GENERAL DEFICIENCY BILL INTRODUCED

WASHINGTON, Feb. 27.—The general deficiency bill carrying additional departmental appropriation of \$26,799,171 was introduced in the house today by Chairman Sherley of the appropriations committee, who asked for its immediate consideration. A reduction of \$13,848,404 was made by the committee from the total of estimates submitted. Some of the larger appropriations carried include \$8,794,321 for the treasury, \$6,699,891 for the navy, \$4,048,588 for the postal service, \$2,172,144 for the department of labor and \$1,202,286 for federal courts.

OPPOSED TO SENDING COMMITTEE TO PARIS

Washington, Feb. 27.—President Wilson does not approve the sending of a joint committee of members of the house and senate foreign relations committee to an inter-allied parliamentary conference in Paris during the peace negotiations.

In view of the President's attitude, it was regarded as virtually certain that it would be reported adversely and the invitation declined.

SITUATION AT PETROGRAD IS BAD

Petrograd, Feb. 27.—It was extremely bad. Food has reached prices which are beyond the reach of the people, many of whom are dying from starvation.

POSSIBLE SOLUTION OF RUSSIAN PROBLEM

WASHINGTON, Feb. 27.—Three possible solutions of the Russian problem were laid before the senate foreign affairs committee tonight by Nicholas A. Auxenleff, the first president of the all-Russian government and a member of the former Kerensky government who recently arrived in the United States. Mr. Auxenleff whose government was overthrown by Admiral Kolchak in the coup d'etat by which Kolchak proclaimed himself dictator, said Russia might be placed on her feet again by:

First—Sending of an allied force adequate to maintain order thruout the country until the people were able to hold an election and choose a form of government.

Second—Furnishing of munitions, food, clothing and other supplies to the organized Russian government which in time thereby would be able to restore order.

Third—Establishing of commercial credits which would enable the loyal Russian government to continue its warfare against the Bolsheviks until they were exterminated.

The Bolsheviks, Mr. Auxenleff said, do not represent in any way the great mass of the Russian people. The Bolshevik government he asserted is an autocracy and must be overthrown as the great mass of the Russian people would be satisfied with nothing less than a real democracy.

SEN. HITCHCOCK IN STRONG APPEAL FOR LEAGUE PLAN

(Continued from Page 1)

city proceeds with examination of disputes would insure "a cooling off time and of its being a tremendous safeguard against war."

Digressing from his prepared text, Senator Hitchcock declared that if the senate attempted to amend the proposed constitution the league would be wrecked. He accused senators who opposed the league plan before the proposed constitution was announced, with trumping up charges against it.

Senator Hitchcock spoke before crowded galleries, but there was no demonstration as spectators had been warned against applauding.

Expresses Confidence

President Wilson in discussing the league with members of congress and also at a conference with newspaper correspondents expressed confidence in the success of the plan. He also let it be known that he has every expectation of the conclusion of peace within a few months and in this connection said that territorial adjustments presented the most delicate problem remaining. Work on all other questions he stated is rapidly nearing completion by the commissions appointed to handle it. The president was emphatic in expressing his belief that in no particular did the proposed constitution of the league conflict with the American constitution or with the Monroe doctrine. He also said he had in mind only one amendment design-

ed to clarify the clause dealing with enforcement, of territorial decrees and reiterated that he would not address congress before it adjourns and would not ask any formal expression from the senate on the league.

Mr. Wilson was said to have indicated that he was reluctant to re-open the league constitution before the peace conference. He was reported as feeling that with the document approved unanimously by fourteen powers after many weeks' deliberation it would be inadvisable to re-open negotiations unless changes proposed fundamental.

The change he has in mind was not so classed by the executive.

Senate debate will be resumed tomorrow with addresses by Republican Leader Lodge and Senator Frelinghuysen of New Jersey.

Today Senator Owen of Oklahoma, Democrat, introduced a resolution advocating amendment of the league constitution to definitely declare that American sovereignty is not affected while Senator Spencer of Missouri, Republican, offered a resolution proposing that the league be excluded from authority over "purely American questions."

Both resolutions went to the foreign relations committee without prospect of action before adjournment of congress.

CHAMBERLAIN COLDLY RECEIVED BY WILSON

WASHINGTON, Feb. 27.—President Wilson and Senator Chamberlain of Oregon, chairman of the senate military committee met today for the first time since their controversy of more than a year ago when the president wrote a letter sharply criticizing the senator for his New York speech in which he said certain government bureaus had "almost ceased to function."

Senator Chamberlain called to pay his respects to the president. The president shook Senator Chamberlain's hand once and the smile on his face disappeared. Gravely bowing, the president released Mr. Chamberlain's hand and without speaking turned to greet another senator.

SWISS TROOPS REINFORCED

Geneva, Feb. 27.—(By the Associated Press)—Swiss troops on the Bavarian and Baden frontiers of Germany have been reinforced owing to unrest across the boundary. A dispatch to the Geneva Journal from Munich says the situation in the Bavarian capital is confused.

The Central congress, the dispatch adds is demanding a soviet government. Dr. Wilhelm Muehlen, former director of the Krupp works, at a conference with the central committee declared that he would only work with parliament. It has been reported that he was to visit Munich and negotiate with the Socialist leaders with a view to forming a new Bavarian cabinet.

WILL TESTIFY AT HEARING OF MOTHER

TRAVERSE CITY, Mich., Feb. 27.—Mrs. Mary Fleets, of Milwaukee, daughter of Mrs. Stanislaw Lypchinski, held on a charge of murder in connection with the disappearance of Sister Mary Johns, will come to Traverse City to testify at the hearing of her mother, set for March 11, according to word received here today.

Officials said Sheriff Kunnican plans to interview the Felician Sisters in Milwaukee, who, according to rumors here, first divulged the burial place of Sister Mary. On this information it is said Father Podlewski, pastor of the Isadore Church and Jacob Fleets, the section unearthed the body, supposed to be that of the missing nun in the church basement. Dr. G. W. Fraleck, coroner of Leelanau county, plans to hold an inquest tomorrow.

BRITAIN ESTABLISHES NEW MINISTRY

LONDON, Feb. 26.—In the house of commons today, introducing a bill to establish a ministry of ways and communications, Edward Shortt, secretary for home affairs said that hitherto there had been no co-ordination between the various means of transport had depended largely upon private efforts. It was quite impossible, he said to revert to pre-war arrangements, and it was essential that there should be control and co-ordination.

The new ministry under the bill would take over control of railways, canals, waterways, roads and finally power. It would maintain the war time control over railways and might make such changes as it thought necessary with the sanction of the house.

The bill was given its first reading.

BOLSHEVIK MURDERS A TERRIBLE TALE

COPENHAGEN, Feb. 26.—(via Montreal).—The official report of the Estonian authorities on the atrocities committed by the Bolsheviks in Estonia especially at Wessenberg and Dorpat, unfolds a terrible tale.

The graves of persons murdered at Wessenberg were opened Feb. 17 in the presence of the town governor and were found to contain eighty two bodies. The skulls had been battered in and the bodies bayoneted. An eye witness said the people were placed on the edges of the graves and shot. The bodies were then thrown into the graves and the wounded killed with rifle butts.

At Dorpat the people killed were dropped into the river thru holes cut in the ice. The report says that thirty men at Narva were drowned the Bolsheviks tying stones around their necks and throwing them into the river.

ARMY HERO, A NAVY DESERTER

NEW YORK, Feb. 26.—An intense desire to see active service in the trenches in preference to life aboard ship resulted in Cornelius Fiske, 18 years old of New York who deserted the navy to join the marines shortly after the United States entered the war returning to this country today a prisoner on the Steamer President Grant. Fiske joined the navy two years ago, but after one trip across joined the Sixth Regiment of Marines.

He took part with that regiment in the fighting at Chateau Thierry, Belleau Wood and Soissons. Keeping his secret until the armistice was signed, his commander said that he could not prevent Fiske's arrest, altho he obtained permission to act as his attorney when his case came to trial and hoped to have him acquitted.

TWELVE KILLED

Warsaw, Feb. 27.—(By the Associated Press).—Twelve persons were killed in Bransk by the Germans before they evacuated the town, and villages along the railway from Bialystok to Brest Litovsk are being burned and pillaged by them.

It is estimated that horses worth a billion marks have been stolen from Lithuania by the Germans.

SUIT DISMISSED

Springfield, Ill., Feb. 27.—Judge E. S. Smith of the Sangamon county circuit court today found the issues for the state and dismissed for want of equity the friendly suit of John Mitchell of

Mount Carmel for an injunction to test the validity of the 600,000 bond issue for hard money. The suit was directed against state officials to restrain them from carrying into effect the issue.

**Hudson Super-Six Gained Its Leadership
on the Speedway. It Maintains It
With 60,000 Users**

The records Hudsons made in the tests that prove endurance are just as important today as they were when made three years ago.

That was the only way then in which it could be proved a life car. The abuse which only the speedway and the hardest touring and hill climbing would reveal in a few hours had to be used to demonstrate Hudson limits of endurance. Ordinary driving was too slow.

Now 60,000 users through every kind of service and neglect are individually confirming what was shown in those tests. They have established the leadership of Hudson Super-Six in every way that proves performance and long life.

Rival's Imitations Make It the Pattern Car

Every car produced since Hudson Super-Six design showed the importance of minimizing motor vibration, as it does with its exclusive motor, has reflected Hudson leadership. First it was mechanical leadership. Now it is in body designing as well, that others look to Hudson.

This year's auto shows reveal that influence. Comparison of most cars with earlier Hudson models show it. Present Hudson models in such types as the Sedan, the Touring Limousine, Coupe and others are regarded as forecasts of what others will offer next fall.

When you get a Hudson you may expect to see a similar type on models which others bring out six months to a year hence. But there is a shortage of Hudsons this spring as there has been every spring for the past three years. You should speak early to assure delivery.

Nervousness and Headaches Caused By Acid-Stomach

There is a much closer connection between the stomach and brain than most people imagine. It is because of this close connection that indigestion, belching, sour gassy stomach and other stomach miseries—all of which are sure signs of acid stomach—are so often followed by severe attacks of blinding, spitting headaches.

Nervousness, sleeplessness, irritability, mental depression, melancholia and many other disorders which affect the brain can also nearly always be traced to the same source—acid-stomach.

So often you hear people say: "I am so nervous I think I'll fly to pieces!" or "It seems I never get a good night's sleep any more, my nerves are all on edge." Little do they dream that acid stomach is the direct cause of their troubles because very often there are no pains in the stomach at all. So you see, you can't always judge an acid-stomach condition by the way your stomach, itself, feels.

If you are weak, nervous, unfit—if you are not up to your old time form—if you lack your accustomed enthusiasm, energy and pep—make this test and see if it isn't acid stomach that is holding you back—robbing you of your health, strength and vigor. Get a big box of EATONIC—the wonderful modern medicine that so quickly puts an acid stomach to rights. It is in the form of pleasant tasting tablets that you eat

like a bit of candy. EATONIC rids the stomach of excess acid. Brings instant relief from indigestion, heartburn, sour belching, food repeating, bloating and gas and makes the stomach cool, pure, sweet and comfortable.

Dentists warn us against the bad effects of acid mouth, pointing out that the acid eats thru the enamel of the teeth, causing them to decay. You can easily imagine then the amount of damage excess acid will cause to the delicate organization of the stomach.

Thousands of people are using EATONIC and the results obtained are so remarkable as to be almost unbelievable. Yet their letters of gratitude, many of which are received daily, prove absolutely that EATONIC does all and even more than we claim. The medical profession, too, recognizes the great value of this wonderful remedy. A learned Michigan doctor wrote recently: "I have had such wonderful success with EATONIC that I want every one to know how the stomach (acid-stomach) and the stomach will soon be sweet and normal again, and the sick man well and happy once more."

So be sure to get a big box of EATONIC from your druggist today. If it fails in any way to give you the kind of satisfaction you want, like it back—he will refund your money. He doesn't want one penny of your money unless EATONIC helps you.

EVERYTHING MUSICAL
49 South Side Square

While this will have an effect on the attendance, yet Jacksonville students are good losers and no doubt will attend all games and distribute their rooting and "pep" impartially among the various contestants.

A crowd that filled every seat, the stage and overflowed the playing floor greeted the players in the opening game. This restriction of space was a handicap to the players and especially to the locals who have been used to have the entire floor.

Game Fast and Clean.

Perhaps no faster or cleaner game has ever been played that the final game between the Jacksonville and Jerseyville. The players of both teams were strung to a high tension and played at top speed thruout. Despite this there was but little fouling and rough playing each team having great respect for the other's prowess.

At the end of the first half the score was 15 to 4 in favor of Jerseyville. In the second half Jacksonville held Jerseyville to five points while she added eight to her score. Had Jacksonville had any luck in shooting baskets in the second half we might be writing a different story than this. Jerseyville, however, used good judgment and played a defensive game most of the time after getting a lead and their close guarding made it difficult for the locals to get close to the basket, so they broke thru the defense several times.

Perhaps there has never been such enthusiastic rooting as that displayed by Jacksonville students Thursday evening. They rooted thruout the entire evening. The climax was reached when Jacksonville's five came on the floor. It literally raised the roof and broke out afresh when the locals scored a point or stopped Jerseyville from scoring.

Not in Last Year's Form

The Jerseyville is not showing the form that she displayed last year, she is still a formidable opponent and it is almost assured that she will be in the finals unless some team develops unexpected strength.

Barry has not yet been seen in action but it is the consensus of opinion of the doers that the final game is likely to be between Barry and Jerseyville. It is a long road travel today however and some surprises may be sprung before the day's schedule is played thru.

In the opening game White Hall defeated Bend by a score of 20 to 12. This game was slow compared to the last one of the evening. Until the second half it was anybody's game but then White Hall speeded up a little and took the lead and was never headed.

Rushville and Winchester played the second game of the tournament. Both were off in basket shooting and did not play with much speed. The final score was 17 to 11 in favor of Rushville.

In the third game Pittsfield faced Girard. The Pike county boys were looked upon as sure winners in this event but Girard showed unexpected strength. Girard was especially strong in guarding and had a defense that Pittsfield was unable to penetrate.

Girard, however, did not have much in the way of offense and the result was that only four points were made in the first half, all of them being free throws. The second half both teams did better offensive work with the result that the final score was 12 to 10 in favor of Girard.

GEORGE COE WRITES HOME

Charles Astor with Brendon & Dorand, successors to J. W. Lane clothing, has received a letter from George Coe with the army in France. The letter was written at Enntrammes, an embarkation point and George was rather expecting to sail for home in March but of course couldn't tell. He has been on the front three months with the light artillery and the ship, the "Justicia," was sunk the next trip it made after he went over. He was in Camp Menon two months and was in action from the 15th of August till the great Nov. 11th. He was in Chateau Thierry, the Argonne forest, Belgian frontier and other places of hard fighting. The Belgian frontier was the worst as the mud was so dreadful that it impeded motion and made everything doubly difficult. Once when he was reading a letter a bomb exploded most uncomfortably near him but he was unhurt. He has his gas mask and helmet which he will keep as souvenirs of his service and will undoubtedly bring home other things from the noted fields of battle. George is one of the many brave young men who did their native country honor and helped save the world for democracy.

ANOTHER GOOD DAY IN SUBSCRIPTION WORK

ABOUT \$25,000 ADDED TO PREVIOUS PLEDGES

Total Now Well Past Mark of \$109,000 Citizens Asked to Join in Movement and Make Voluntary Pledges.

The committees of business men were busy again yesterday securing subscriptions to the fund for water supply and the total for the day was \$24,050. This sum, with the subscriptions previously made, makes a grand total of \$109,550. The subscribers met with ready response in almost every instance. Today the committees will again be at work but subscription cards will be left at the banks and most of the business houses. Citizens, and all of them are interested in this movement, are requested to make voluntary subscriptions if they have not been solicited. All these subscriptions are really investments which will bring an interest rate of 6 per cent, and it will aid the city in securing a long needed supply of water. The first subscription from a lodge was that reported yesterday of \$250 by Favorite lodge No. 376. The report was turned in to the general committee by J. E. Claus.

The subscriptions below also include the names of W. E. Sullivan, Lee Sullivan and B. O. Roodhouse. They are all members of the Elbridge Co. and while no subscription could be taken as a corporation, officers of the company made these individual subscriptions.

COW TESTING RECORD FOR FEBRUARY

Total of 430 Cows Tested During Month by Jacksonville-Springfield Cow Testing Association—High Record Cow Belonged to L. J. Foster.

The February report of the Jacksonville-Springfield Cow Testing association which has just been compiled by Lou R. Henderson, official tester, shows that a total of 430 cows were tested during the month. The cows which made over 40 pounds of butter fat numbered 48, and there were 11 which made over 50 pounds of butter fat. The highest record was made by a grade Jersey cow belonging to L. J. Foster of Auburn. This animal produced a total of 1114 pounds of milk, and 66.84 pounds of butter fat. Another cow which made an especially fine showing was a grade Holstein heifer owned by Mrs. McCollister of White Hall. This cow had a milk production record of 1,350 pounds, tested 2.9 and made 51.30 pounds of butter fat. This animal has been on the test list for the past three months and during that period has produced a total of 175 pounds of butter fat.

The high herd record was that made by the thirteen grade Holsteins belonging to James McCollister of Auburn. This herd averaged 1214 pounds of milk, tested 3.2 and averaged 39.34 pounds of butter fat. The next highest herd was that of Chester Miller of Carlville, and the third place went to the herd of Albert Hopper of Strawn's Crossing.

Members of the association who had 40 pound cows during the 30 day period are J. P. Doan, M. S. McCollister, Chester Miller, Otis Johnson, James McCollister, L. J. Foster, Mrs. G. W. Taylor, E. L. Corbin, Jacksonville State Hospital, Illinois School for Deaf, Parkers, Bros., John Vorhes, Albert Hopper, and M. E. Eldred.

The test list for the past three months and during that period has produced a total of 175 pounds of butter fat.

DECATUR NEWLYWEDS
TO COME TO THIS CITY

Lieut. Elmer Kieck and Miss Mabel Dawson Married in Pretty Home Ceremony—Both Prominent in Decatur Society—To Live at Colonial Inn Here.

Decatur, Ill., Feb. 27.—(Special.)—The marriage of Lieut. Elmer L. Kieck and Miss Mabel Dawson, both of this city, was solemnized tonight at 8:30 o'clock at the home of Mr. and Mrs. O. W. Dawson, parents of the bride, on Cleveland avenue.

The ceremony was said by Dr. W. H. Penhallegon, pastor of the Presbyterian church. Additional interest was given the occasion from the fact that Dr. Penhallegon performed the ceremony at the marriage of the bride's parents twenty-five years ago.

The wedding company tonight was limited to relatives and immediate friends. The Dawson home was very handsomely decorated with Killarney roses and southern smilax. It was a military wedding with all of the stateliness and dignity that the military touch can give.

The bride was gowned in white pussy willow satin made en train. Her tulle veil was caught with a spray of orange blossoms and she carried a shower bouquet of bride's roses.

Miss Edith Dawson, a cousin of the bride, was the maid of honor. Mary Elizabeth Mills, a cousin at the bride and Edgar A. Kieck, a nephew of the groom, both three years of age, and daintily clad in white, were the flower bearers and preceded the bride and her maid of honor, as they entered the reception room where the service was said.

Lieut. Kieck was attended by his brother, Lester Kieck.

This bride and groom were students at Millikin university and the friendship formed then continued in after college days. The bride is well known in the musical and literary life of Decatur and has been especially popular socially.

Lieut. Kieck, who is a son of Mr. and Mrs. George E. Kieck, enlisted in the army service more than a year ago and because of the good record made, won promotion which gave him entrance to an officers' training school. He was commissioned a lieutenant and then made an instructor shortly before the signing of the armistice. As a business man he has already shown large capability, having measured up fully with every responsibility.

After a short wedding trip Lieut. and Mrs. Kieck will go to Jacksonville, where they will be at home to their friends at Colonial Inn. Lieut. Kieck will have active charge of the 1200 acre farm which his father purchased a year ago from the executor of the Julius E. Strawn estate.

Lieut. Kieck's university training and his experience since have fitted him for the farm management work he is now undertaking.

Both the bride and groom are members of families long prominent in the best circles of Decatur and the marriage event therefore had unusual social interest.

VICTROLA RECORDS for March are here. Go on sale Saturday. Hurry if you want a good choice.

First of Series of Special Entertainments Presented Thursday Night.

The first of a regular series of lectures on timely and interesting every day problems was given at the K. C. hall Thursday night following the regular business session of Jacksonville Council No. 868, K. of C. The program was arranged by Father Cahill, lecturer of the order in this city. The following were the speakers, together with the subjects assigned:

D. Scott Sweeney, Cement.
Jos. Sheehan, Army Life.
Thos. Casey, Government Meat Inspection.

Wm. Carroll, Theatrical Life.
The newly organized W. C. Choral club, under the direction of Jos. Becker, made its first appearance Thursday night, rendering three selections, which were well received.

Father Smith of Franklin was present and gave a very interesting talk on the Good of the Order. There was a large attendance and members expressed themselves as well pleased with the result of the meeting. A similar event will be arranged to follow the business session on next regular meeting night.

PASS RESOLUTIONS ON

DEATH OF MRS. LITER
The Litterberry M. E. Society recently adopted the following resolutions on the recent death of Mrs. J. M. Liter, one of the charter members of the organization:

Whereas, It is our sad duty to record the death of our sister member, Mrs. J. M. Liter, who was a long time member, being a charter member for these many years,

Resolved, That we have lost a faithful member, who gave of herself, her time and her talent for the good of our society,

And that we bear witness to her loyalty in her official character, she being our president for the past five years.

Resolved, That we all miss her kind words and helpful advice feeling that we have lost an efficient member. We offer to her family and friends our sincere condolence and pray that God will lead us all into a closer and richer relationship with each other and with Him.

Resolved, That a copy of these resolutions be placed on the minutes of this society and a copy be sent to the Jacksonville Journal. Litterberry M. E. Society. (Signed.)

Mrs. W. E. Rexroat, President.
Mrs. D. K. McCarty, Reporter.
Mrs. Charlie Clark, Secretary.

LAWRENCE FISHER HOME.

Lawrence Fisher, son of Mr. and Mrs. Louis Fisher near Franklin, has returned from his service with the army and has an honorable discharge. He spent much of his time in Camp Jackson, South Carolina and Rockford where he was quarantined quite a while while the others had mumps, measles and flu. He only had rheumatism in the south. He was at first with Motor truck division but later was transferred to the artillery.

FELLOWSHIP SESSION
HELD AT CENTENARY

Members of Congregation Guests of Brotherhood—Excellent Program Followed the Supper.

A very laudable custom of Centenary church is to have a gathering of the whole membership once a year in a social manner at which time the congregation are guests of the brotherhood of the church and a right good time is enjoyed by all. Of course such affairs would be rather tame without a feast and the brothers see to it that it is in a shape first-class as every one attending will testify.

Last evening was the date for 1919 and as usual it was a grand success. The tables were spread in a tempting manner and the good ladies, so skilled in the culinary art, readily admitted that the brethren could prepare a feast which was truly appetizing. Oyster soup was the chief feature of the bill of fare and was reinforced with pickles, coffee, ice cream, cake, apples and other good things. All went without a hitch and was a complete success.

The committee was composed of Frank Garland, Thomas H. Rapp, Ira Patterson, Charles F. Glossup and J. G. Berger. Messrs. Berger and Rapp presided at the soup kettles and saw that all in that line was faultless and no one showed any lack of appetite.

After all had been satisfied the tables were cleared and speaking was in order. E. G. Saye, president of the men's organization, presided and the following spoke:

Dr. F. M. Rule for the Clergy.
Dr. Nyman for the Woman's College and in general.

Mrs. E. L. Kinney for the Ladies' Aid Society.
Miss Flossie Kellogg, head of the Epworth League.

Mrs. Leslie for the pastor.
A. C. Metcalf, Sunday School Superintendent.

C. S. Smith, teacher Men's Bible Class.
Rev. W. R. Leslie, pastor.

An Edison phonograph, loaned by Brady Brothers added much to the enjoyment of the occasion and the Sunday school orchestra furnished good music.

STUDENTS ENTHUSIAST

AT HIGH SCHOOL

It was a very enthusiastic meeting held at the Jacksonville high school yesterday afternoon to get things stirring for the opening game of the basketball tournament. Miss Leonard, of the faculty, had charge of one feature of the program which made it very interesting. A young lady representing each player on the high school team appeared on the platform and made a short talk, referring of course particularly to the confidence the high school people had in the team making a fine tournament showing.

Mr. Tomlinson, who is one of the most enthusiastic of high school "rooters" was present and added to the sum total of enthusiasm by his rousing speech.

Just received car of hard coal. Delivered promptly. Harrigan Bros., either phone No. 9. 401 North Sandy St.

ARRIVES IN PORT.

Mr. and Mrs. G. H. Cruzan have received word of the safe arrival in New York from overseas of their son Merrill. Young Cruzan came over on the ship Kansas and is now located at Camp Dick awaiting his discharge.

NO ROTARY CLUB MEETING TODAY

Notices were sent out yesterday by Frank J. Heintz, secretary of the Rotary club, stating that there will be no luncheon today on account of the crowded condition of the hotels. At the luncheon next week Dr. Arthur G. Ryan of Constantinople will make an address on "The Near East."

WILL MEET TODAY

The West Side Ladies Art club will meet with Mrs. Albert Fountain, 619 South Fayette street, this afternoon at 2:30. Assistant hostesses, Mrs. Aaron Swar and Mrs. Turner.

PRESBYTERIANS IN NEW
ERA ECHO MEETING

Series of Interesting Conferences Held at Northminster Church

An echo meeting of the New Era movement was held at Northminster church yesterday. It was a union service for Westminster, State Street and Northminster churches and there was a goodly representation of them all. The morning session was for the most part a conference of ministers. In the afternoon Dr. E. B. Landis presided and the discussion of the various topics was led by Dr. A. E. Moody of Aledo, the general theme being "Moved to Prayer—Power." In the afternoon women and men held separate conferences and there was some special discussion for young people. Among the women speakers were Mrs. A. E. Aherns and Mrs. C. A. Faught of Decatur. Rev. S. P. Harry, Petersburg was a special speaker at the burg was a special speaker at the Northminster church served an excellent luncheon and there was a supper at 6:15, when more than 200 persons were served.

Following the supper Rev. W. H. Marbach presided and called upon a number of speakers for brief addresses. Rev. Marion Humphreys, Presbyterian pastor, was the first speaker and he explained something of the scope and purpose of the New Era movement.

Dr. Moody of Aledo was the next speaker. He is one of a group of men who are spending 60 days in special work for the New Era Movement, and will visit as many as possible of the 361 churches in the district to which he has been assigned. He referred to the movement as a "budget of opportunity" and explained how the fund of \$12,114,339 is to be expended.

Mrs. Faught of Decatur in her brief address referred particularly to a recent editorial in the Wall Street Journal in which it was said: "What the Church and Country Need is a Return to Old Time Religious Practices." Albert C. Metcalf, a four minute man for the Centenary movement of the Methodist church, explained that the movement is very similar to that which the Presbyterian church is fostering. Both of the movements, he said, spell opportunity and responsibility.

Lieut. A. F. Ewart made an inspirational address from the theme "The Morning Breaketh." He said that a new day had indeed come for the church just as it had come to all organizations in the world. Greetings were extended by Rev. O. C. Bolman of the Christian church, who spoke very briefly of the Men and Millions Movement of that church.

The last speaker was Dr. J. W. McDonald, who has special charge of the New Era movement work in this presbytery. Announcement was made that Dr. W. H. Foulkes, one of the men intimately connected with the direction of the whole New Era Movement, will speak in Springfield at a noon day luncheon next Wednesday. In the evening of the same day he will attend a fellowship meeting at Decatur. It will only be possible for him to hold these two services in this presbytery.

Altogether the services of the day gave to the church people a better understanding about the New Era movement and more earnest desire to contribute to its success.

SPECIAL SERVICES END

Dr. O. F. Jordan of Evanston finished his series of services at Illinois college yesterday. At the morning chapel hour in addition to Dr. Jordan, Mr. Little, student secretary Y. M. C. A.; Lieut. W. H. Marbach and Rev. W. R. Leslie, all took part in the service which was of an especially helpful kind.

The service was for the men of the college and at the same time the young women held a meeting, when Dr. Blake, representing the national Y. W. C. A. organization, spoke. In the afternoon Mr. Little met with college students to talk over reorganization of the Y. M. C. A. work. Altogether the services of the day were of great value to the student body and the services of the week have increased the interest in the religious life of the institution.

THOMAS JENKINSON

HEARD FROM

Thomas Jenkinson, formerly of this city and son of E. A. Jenkinson of the force at the Tom Duffner clothing house, has been heard from recently. He is with a special command of fifty with two officers and their especial duty is to seek and locate graves of fallen U. S. soldiers. They have traveled the length of the fighting front several time and will be there within a few feet of the border of Switzerland and stepped over so they could say they had been in the land of William Tell. Tom is well and getting along all right. He said he had collected a good many souvenirs and then threw a part of them away as they were cumbersome. A good many tho he will undoubtedly bring back with him.

Diamond Jewelry

This store has long borne the distinction of being diamond headquarters for this section of Illinois — carry at all times a large line of loose and mounted stones.

Since 1476, when de Berghem discovered the art of cutting and polishing diamonds to produce their present-day brilliance, the diamond has stood out the most desired — most worshipped — of all precious stones.

Everyone should own a diamond; as a matter of investment with men; and to satisfy that natural love for beautiful personal adornments with women—the diamond is a most prized possession.

From our collection of loose stones you may choose one of the particular size that suits your fancy and we will mount it in any piece of jewelry you may select.

This work is done in our own workroom, by competent craftsmen, and without delay. All orders executed the day received.

If interested in the purchase of a diamond, we shall be pleased to have you call and inspect our splendid values.

AMERICAN TOWN ON RIVER THAMES

Business of the Town is to Receive, Sort and Store War Material—Official's Explanation of This Strange Camp.

London, Jan. 25.—(Correspondence of the Associated Press).—On the banks of the Thames, less than twenty miles from London, there is an American town of the mushroom kind such as you might find in a new California oil field. Its population consists of more than 200 white men and about 150 negroes. It covers 35 acres which nine months ago were fallow grass land. The business of the town is to receive, sort and store war material. It is the great American supply depot in England.

There is a street of wooden huts, another of corrugated iron huts, huge iron store sheds a quarter of a mile long, office buildings, water supply and electric light, the whole surrounded by a hedge, a few armed sentries and much mud. All day long the khaki-clad negroes push and haul railway trucks full of war material.

Englishmen peer over the hedge and ask satirically if the United States doesn't know that the war is over. If they ask an officer for enlightenment about this strange camp, his explanation is something like this: "America came into the war with both feet, banking on at least three years of it, which was the safe thing to do. Our government made contracts with British manufacturers to supply our army with tons of war material, from a tin tack to a steamroller. The British factories built new plants and took on new hands to meet our needs, and deliveries were going smoothly when the armistice was signed.

"If we had scrapped our contracts then, some British firms might have been driven into bankruptcy, putting thousands of men out of work and leaving the factories with tons of useless material on their hands. So the United States government merely cancelled orders for material that had not been actually started on, and told the factories to go ahead with what they had in hand.

"This place is the collecting station for that material. We are receiving tractors for guns, trenching tools, thousands of yards of camouflage wire netting, stacks of asbestos roofing for hospitals, timber frames for huts, wheelbarrows, shovels, pickaxes, bolts, screws and a lot of other stuff. We are going to store it all here and sell it later on. It will all be useful, and we can wait for the market. The manufacturer couldn't have waited."

War material coming back from Russia is being stored at this camp, also the fittings of the dismantled hospitals which the American army established in England.

NORTHWEST HAS LAND AND LABOR PROBLEM.

Winnipeg, Man., Feb. 27.—The land problem and the labor situation are overshadowing all other issues in the Canadian Northwest. Official assurances have been received from Ottawa that the government intends to put machinery in motion immediately by which large tracts will be available for Canadian soldiers who desire permanent homesteads.

Municipal officials have joined with various associations in urging the government to take full charge of problems arising from the return of soldiers.

It is understood that the Dominion department of interior is completing a bill to be submitted to parliament at the coming session, which will authorize the soldier settlement board to acquire farm lands within settlement districts and to purchase stock and farm implements. It is proposed to sell these lands to soldiers on favorable credit terms.

TRANS-CONTINENTAL AUTOMOBILE HIGHWAY.

Winnipeg, Man., Feb. 27.—Agitation for a trans-continental automobile highway from Vancouver to Halifax, via Calgary and Winnipeg, seemingly has been disposed of for the present at least as a result of disapproval by the Winnipeg common council. The city engineer reported that the general plan was not feasible because a long section of the trail would run thru the Northern Ontario wilderness and that it would be necessary to maintain gasoline stations along that route. The returning soldier problem also stood in the way.

In this connection it is stated that Winnipeg, Calgary, Edmonton and other cities in the Northwest are considering ways and means to have the government eliminate the 1000 unpaid Ontario province still spend \$25,000,000 on reconstruction work, reports say.

VICTORIOUS ARMY HAS MISERABLE END

180,000 Germans Commanded By Von Mackensen Driven Out of Rumania After Signing of Armistice Met With Hardships—Story of Homeward Journey.

BERNE, Feb. 22.—(Correspondence of The Associated Press).—Seldom has a victorious army come to so miserable an end as that of the 180,000 Germans commanded by Field Marshal Von Mackensen who were driven out of Rumania after the signing of the armistice.

On their way home thru Hungary the debatable divisions which had accompanied Von Mackensen in triumphal march thru Transylvania and Rumania lost, sold or were robbed of virtually all their belongings. One division, the eighty-ninth, which had fought victoriously in Poland and Lithuania escaped into Germany without as much as a horse shoe nail of its property and, clad in ridiculous disguises of shabbiest civilian clothing and Austrian uniforms sold to them at Raab, they said, at monstrous prices. The story of their inglorious homeward journey as told by a member of one of the German divisions to the Schlesische Zeitung follows:

"Orders had been given that bloodshed should be avoided, so the victors of Hermannstadt and Rimnik turned their faces towards Hungary, and leaving incalculable supplies of flour, sugar, wine, hospital stores, and agricultural implements behind them, made their way, pursued by the Rumanians, over the wintry Carpathians. There were no Hungarian troops waiting to intern the German legions, and few Entente soldiers in Budapest did not count. We were told that the Entente would impose still harder conditions in the West, so we were ordered to allow ourselves to be disarmed by a ridiculous minority.

"Then began a second march over the snowy steppes. Thousands of old Landsturm men did not face this trial and were taken prisoners by the Wallachians who sent them back over the mountains into Rumania. Several divisions succeeded in buying locomotives, cars, and carts at Klausenberg, and thus finished their journey by train. A great mass of material was sold. Hundreds of transport and other wagons were simply left in the road or broken up for firewood.

"The trains were allowed to go to Raab, whence, by order of the Entente, the Hungarian government sent them to the old internment camp for Russian prisoners at Papa.

"Small things of value that we had saved were taken from us by Magyars on the way from Raab to Vienna. With the divisional money-chest plundered of its contents by Magyars, the 89th Infantry Division reached German and Austrian soil, thru the last remaining gap near Pressburg which the Czechs closed a few days later, undoubtedly at the behest of the Entente."

MEXICO MAY ABOLISH LIQUOR TRAFFIC.
MEXICO CITY, Feb. 27.—(By Mail).—President Carranza is considering a plan submitted by the National Board of Health for the enactment of legislation that will gradually result in the complete abolition of the alcoholic liquor traffic in Mexico. He recently signed a decree increasing from 25 to 50 per cent the tax on pulque and other alcoholic beverages in Mexico City.

The constitution, according to the officials of the Board of Health, gives the body liquor powers to dictate health regulations that will result in the abolition of the liquor traffic. The board's program, as submitted to the President, provides for an elaborate campaign to suppress the liquor traffic gradually. High duties, early closing hours for saloons, temperance lectures, organization of temperance societies and various other means would be resorted to before the prohibitory regulations became fully effective.

OPEN READJUSTMENT CONGRESS IN OMAHA

Constructive Program for Advancement of Industry to be Adopted at Trans-Mississippi Readjustment Congress—List of Subjects to be Studied and Acted Upon.

Omaha, Neb., Feb. 18.—A constructive program for the advancement of industry in the west during the reconstruction period will be adopted at the Trans-Mississippi Readjustment Congress which opened here today with business men, farmers and state officials present from virtually every state west of the Mississippi.

"Just as the industrial east organized at Atlantic City in December, the west will chart its 1919 business at Omaha," said John W. Gamble, president of the Omaha Chamber of Commerce, in an opening statement to the congress.

The congress divided into sectional groups this afternoon for the purpose of preparing reports on post-war prices for the dairyman, the farmer, the implement man, wages of the farm laborer and factory worker, the needs of rural schools, and the causes of the present high cost of living.

The Chamber of Commerce of the United States, under whose auspices the congress is being held, has requested that the following subjects be carefully studied and acted upon by the delegates:

The best means to stabilize prices during readjustment period.

Will increased production increase the prices of materials and labor or will a controlled redistribution of material and labor from war industries prevent such an increase.

Disposition of government war materials on hand.

Estimated amount of labor required for 1919 production; its source and how moved.

Do you recommend government financial aid during readjustment? Is financial legislation needed? Should Capital Issues Committee be continued? Should War Industries Board be continued?

Control of materials to avoid market demoralization. Effect on prices of materials uncontrolled.

How can railroad cross hauling be further eliminated, and would ports of entry be advantageous?

Would uniform method of cost accounting be advisable in each industry?

Effect of foreign competition on business. Will it increase or decrease production?

Disposition of merchant marine.

Before the close of business tomorrow night committees will report on these and other questions. Speakers today said that while the war was in progress the national Chamber of Commerce organized America's industries into 380 allied groups to furnish government supplies. The chamber is now advocating legislation for proper validation of informal war contracts and disposition of government surplus supplies.

New Orleans sent a big delegation to point out the advantages to the Mississippi valley of a north-south movement of freight.

Bake at home for their sake.

When hungry little folks come a runnin' for a "piece of bread and butter"—give them the fine, nourishing, full-flavored home-made kind.

Did you ever get a whiff of home-made bread just out of the oven? Did you ever see the rich brown crust with broken bubbles here and there?—a loaf just bursting with goodness? Did you ever slice a loaf and notice the meat of it—as close grained and light as fine cake? Did you ever taste it?—well, folks who enjoy home-made bread just naturally feel sorry for those who don't.

It is so easy to make beautiful home-made bread with Valier's Enterprise Flour, because the fine quality of this flour is such a big help.

Valier's Enterprise Flour is made to give the highest quality baking results—and it does. It's an ideal in flour making—always maintained. When it couldn't be maintained, due to war milling regulations, it wasn't made at all.

COST OF MAINTAINING STATE INSTITUTIONS

Director Chas. H. Thorne Declares State's Penal Institutions Will Require \$17,420,473 for Biennium—Items Included in Budget.

Springfield, Feb. 26.—It will cost \$17,420,473 to maintain the twenty-four Illinois charitable and penal institutions for the biennium beginning July 1, next, according to Charles H. Thorne, director of the department of public welfare. He has asked this amount of the legislature in a bill introduced in the upper house by Senator Curtis of Grant Park.

An appropriation of \$14,475,000 was made by the fiftieth general assembly for the two years ending July 1, next. Mr. Thorne points out, however, that a deficiency of \$1,600,000 for the biennium ending July, due to wartime operating expenses, would bring the total to \$16,175,000.

In the budget for state institutions covering the next two years, the largest amount—\$7,349,000—is for operating expenses. This includes food, clothing, coal, etc. for the hospitals, reformatories and penitentiaries. The next largest item is \$5,846,362 for salaries and wages, representing, it is said, an increase of approximately forty per cent.

The legislature is asked to make available \$255,000 for land. Of this amount, \$100,000 is wanted to buy ground for the proposed state farm for misdemeanants, authorized by the fiftieth general assembly. To acquire land in Chicago for the Psychopathic hospital, \$75,000 is sought. The lump appropriation included \$40,000 for buying 800 acres of farm land in Morgan county bordering the state institutions at Jacksonville, and \$40,000 to purchase 800 acres of bottom land near Chester penitentiary. It is proposed to build a dyke along the Mississippi river and to reclaim low land by convict labor.

Other items are: permanent improvements, \$2,113,550; working capital \$279,200; repairs \$1,206,937; office expenses, \$104,422; travel, \$107,126; equipment, \$128,020; rent of store and clerk hire at Industrial Home for Blind, \$30,000.

The budget was made up on the basis of present prices for the first year, 1919-1920, and for the second year, 1920-1921, a decrease of fifteen per cent in general prices.

Another bill to come in later probably will ask for \$750,000 with which to continue the work on the new penitentiary at Joliet of which the first circular cell house has been completed.

A measure by Representative Otto Sonnemann of Carlinville, Republican, already has asked that the construction of the state prison be transferred from the hands of the present commission named by Governor Dunne to the department of public welfare.

MINERS OBJECT TO INCOME TAX

DULUTH, Minn., Feb. — Many miners in the Iron Range district are strongly protesting against the government demand that they pay income tax for the first time. A large number of the miners are unaccustomed. Some have lived on the Range for several years and are considered permanent residents.

The war brought big wage increases. It is understood a careful record of the wages was kept and that after the situation was discussed by government agents and officers of the mining companies the miners they must pay the tax or it "would be deducted at the source."

A number of miners are said to have informed their employers that they would "quit first," and as a result the tax was immediately deducted from their wages and is being held for payment to the government.

For some time there have been reports that many aliens, who have lived legally, have planned to return to foreign countries with their war wages. Leaders of this element have been loudest in voicing protests against the income tax law, according to officials.

It is indeed hard to stand at one side while the stream of life flows by. A man or woman condemned to sickness that does not permit him or her to perform the active duties of life, to do his or her share of the world's work, is a pathetic figure deserving of sympathy.

Much sickness, pain and misery result from disordered kidneys and bladder. Failure of the kidneys to do their work properly and filter impurities out of the blood leads to rheumatism, backache, sore muscles, stiff or swollen joints, puffiness under eyes, floating specks, biliousness, bladder weakness, nervousness, or other symptoms of kidney trouble.

Foley Kidney Pills

are effective in removing the cause of the trouble for they strengthen and invigorate weak or deranged kidneys and help them to normal functioning so that the blood stream is purified and the cause of disease removed.

F. M. Plate (Brakeman), Sec'y, Switchman's Union, 518 Blaine St., Peoria, Ill., writes: "Two bottles of Foley Kidney Pills relieved all symptoms of my kidney and bladder trouble, stopping the backache and pains, correcting the kidney action, clearing secretions. I am also free from dizziness and floating specks before my eyes. Foley Kidney Pills cured me."

Farmers Please Note

5% Early-Delivery Discount On Mogul and Titan Tractors

Nearly five thousand of our boys in khaki and blue are coming back to work. We shall, of course, make a place in our organization for every one of them, but we wish to do it without throwing out of employment the men who took their places and have worked faithfully for us ever since. This is not going to be so easy for us as for some others, because the Government designated ours as an essential industry during the war, and we actually increased the efficiency of our organization after our boys left to join the ranks.

We can, however, give steady work both to our present help and to the returning soldiers and sailors, if we can bring about an immediate increase in tractor production. In order to do this we must move forward to the farm some thousands of tractors that are ordered for delivery at various dates up to May 1st, and we shall also have to ship a large number of tractors that have been intended to order later this season but could just as well take now. To the farmers who are so situated as to be able to take advantage of it we make the following proposition:

Our Early-Delivery Discount Plan

If you will take delivery of a Mogul or Titan tractor now we will reward your co-operation as follows:

To those who will accept delivery of a Mogul or Titan 10-20 on or before March 8th we will give an Early Delivery Discount of 5% from the price of the tractor. (This amounts to \$61.25 in the case of the Titan 10-20 and \$56.25 on the Mogul 10-20.)

After March 8th the following discounts will be given

For delivery during week of March 10 to March 13 inclusive 4%
For delivery during week of March 17 to March 22 inclusive 3%
For delivery during week of March 24 to March 29 inclusive 2%
For delivery during week of March 31 to April 5 inclusive 1%

This discount will go a long way toward paying the fuel bills of your tractor during this season.

By taking advantage of this Early-Delivery Discount, you will not only be helping yourself, but will enable us more easily to put back to work our army of returning boys without breaking up our present organization. You will find that you need a few weeks to get acquainted with your new tractor. The man who has his tractor early can become familiar with it, so that when the

first day of good plowing weather dawns, he will be able to get in the field without a moment's lost time. That in itself is a very good reason for taking early delivery.

Go to your dealer and tell him that you will accept immediate delivery of your Mogul or Titan 10-20 horsepower tractor, so he can make up his carload shipments without delay.

RALPH DOUGLAS WRITES
FROM LUXEMBURG.

Ralph Douglas formerly in the employ of the Journal office is now with the American forces in Luxembourg and has written the following interesting letter to his mother. Douglas was one of the first of Jacksonville young men

Get Rid of That
Persisten Cough

Stop that weakening, persistent cough or cold, threatening throat or lung affections, with Eckman's Alternative, the tonic and upbuilder of 20 years' successful use. 80c and \$1.50 bottles from druggists, or from

to enter the service as he enlisted in Company B. here and went away with the first detachment.

Somewhere in Luxembourg, Jan. 12, 1919.

Dear Mother:

Yours and father's letter of Dec. 4 I received the day after Christmas. I was going to write while we were yet in Stenay, France, but we had to put in nearly the whole day working around the stables, etc., and we had no lights at night. We did have nearly the whole day off Christmas day and the Y. M. C. A. gave each man a bar of chocolate and a package of cookies and three packages of cigarettes. After dinner we had five barrels of beer for the company and a bag of nuts. The next day we started to work again and worked even New Year's day and on Sunday's until we left.

We moved from Stenay Monday morning, Jan. 6, and I received your package on the Friday even-

ing before. You bet your life I enjoyed those cigars and I didn't take time to wash up before I had a god smoke but that soap has put joy into my cleaning up ever since. Two of the fellows in our room also took a bath with that soap and said it was fine.

We were three days on the road to this place, which they call Tuntange, Luxembourg. This trip adds two more countries to my traveling list, for we passed thru Belgium into Luxembourg, and we are only 60 miles from the German border. It looks as if we were going into Germany too, before we get started for home. Father says he is looking every day in the papers to see when this division is coming home. Well, we are also looking for some definite information as to when we are going to start, but as yet we know nothing. We are to have a big inspection here the 30th of this month, so you see we have quite a while to stay here yet. Some seem to think that after the inspection we will proceed to Meersch, a railroad town a short distance from here, and turn in all our horses, caissons and equipment, then proceed by rail to some seaport town, to be shipped home.

I almost forgot to tell you that I am getting so fat that I can hardly get thru a door now. You wouldn't know me if you could have seen me two months ago and now I must tell you how we are billeted here. We are scattered all over the village staying with the citizens of the "republic" of Luxembourg. There are six of us staying at one farm house on top of a hill just outside of the town. We have the horses of our calson in their barn. Our quarters are in what was their living room; dining room and everything else so you see we are a part of their family altho they speak German and we can't understand a word they say, but we get along pretty well with them just the same. They have a family of six and our six makes twelve.

We have had a meal of bacon eggs and fried potatoes set before us every evening. So far, it costs us three francs a man but what do we care for money as long as we can get something really home cooked to eat. I've been drinking two or three big cups of milk with bread every day so you can see why I'm getting fat.

This house is built in real style. It's all stone and you can go all thru the house, cow barn, horse-barn, chicken house and hay loft without going outdoors, for it's all under one roof.

Well, I think I had better stop and save some for the next time, so will close for today. Love to all

Your son,

Ralph O. Douglas.

From Henry Kitcher.

E. N. Kitcher has received the following from his son Henry overseas:

Camp Hunt, France,

January 30, 1919.

Dear Father:

Well, at last I have received a

LIFT OFF CORNS

WITH FINGERS

Doesn't hurt a bit and costs only few cents

You'll laugh. Apply a few drops then lift sore, touchy corns right off. No pain. Yes, magic!

A few cents buys a tiny bottle of the magic Freezone at any drug store. Apply a few drops of Freezone upon a tender, aching corn or a calus. Instantly that troublesome corn or calus stops hurting, then shortly you lift it out, root and all, without any pain, soreness or irritation. These little bottles of Freezone contain just enough to rid the feet of every hard corn, soft corn, corn between the toes and the calluses of bottom of feet. So easy! So simple. Why wait? No humbug!

If He Drinks

Give Him TESCUM POWDERS Secretly

Any mother, wife or sister can stop the drink habit, if she wants to do so. Thousands of women are happy today, because they gave their husbands, sons or brothers "Tescum Powders." The powders are tasteless and harmless and can be given in either liquid or solid food.

You take no risk as Tescum Powders are sold under a steel-bound, money-refund guarantee by Armstrong & Armstrong and other druggists.

letter from you dated Dec. 15. I have received quite a little mail this week, 17 letters in all. Glad to hear that the flu did not get you as I did so many people. I am feeling fine myself, and gaining in weight. Now I weigh 152 pounds. That is more than I ever did weigh. Have you started to build that new house on South Main street or are you waiting for spring?

Well, at last it has quit raining so much but has turned some cooler. I would much rather have the cool weather than the wet.

Mr. Spoons is in a Y. M. C. A. in a town about 35 miles from here but there isn't any chance of getting a pass up there.

What do you say about taking a trip up to Aunt Carrie's after I come back? I would like to go up there about June when the strawberries are ripe, wouldn't you?

Bess said in her letter that Dorothy Dean had the flu. I suppose she is O. K. by this time, as I don't think it goes as hard with children as it does with older people.

What do you think of the States going dry? I don't think much of the deal myself. There are a great many men over here that think the same as I do about it.

Well, I guess I must close for this time, hoping that you are all well.

Your son,

Henry.

CRUSADER NOTES AND
REPORTS

The interest and enthusiasm of the entire community grows as the Health Work progresses in the schools. Here are a few straws that show which way the tide runs:

A prominent dentist of Jacksonville, who has three children of school age, exclaimed, "Isn't this health work great? It is just splendid to see my children line up to brush their teeth."

Two families of grown-ups with no children of school age have asked the secretary of the Anti-Tuberculosis League for Record Folders because they want to do the chores and keep up their records. One of these grown-ups had been doing the water-drinking and fresh air chores and she said she felt better for it. The Record Folders were gladly given.

Five more county schools have just written for literature by "return mail," so that they may take advantage of the Anti-Tuberculosis League's offer, by organizing in February.

The enthusiasm and friendly rivalry in our city schools is both commendable and gratifying. In the report given below, we find three schools with 100% Pages. Their methods of making such splendid scores on the first two weeks' work are interesting. The motto adopted by the Josephine Milligan school is "100% in everything" and so we learn that a number of these children have done 77 chores a week, indicating the daily bath instead of the two weekly baths listed. The lowest average that any child in this school has is 62, whereas the number required for the title of Page is 54 chores per week per child.

At the Independence school, the breathing chore is done at school every day, and much visiting and explaining in the homes has been done. The secret of the 100% Pages at the Franklin school seems to lie in the little daily talks that each teacher gives her class. Coupled with this is a special interest in and effort to help those children who find it difficult to do some of these chores. In some instances, the children and their families have not been accustomed to doing them. Miss Lusk tries to make these children and their families see that this special effort is to help the child to become the fine, clean citizen that he was intended to be.

The Jefferson school headed the list in the last report on the work based on average chores and may head it next time. The motto of the First Ward is "The First Ward First." In the Fourth, Fifth and Sixth Grades at the Jefferson, each row of children has been organized into a team, with a captain who checks the records for his team and assists in the "health inspection." This plan promotes a friendly rivalry.
